Storms in the hun.

On Monday week at noon there was a fresh cutbreak on the sun. The region of disturbance was just wheeling into view on the rounding glebs. At first but a siegle small spot could be seen, but the disturbance in the chromosphere indicated that spots were forming rapidly. In half an heur after the first observation three spots were seen. The region was broken and snary for a great space, but the erea of the disturbance was not half so great as that mentioned last watch. A great group of spots is just disappearing from view by the sun's rotation. As this group was just coming into view when the sun of the last was the targest assortment of medium and the largest assortment of medium and the largest assortment of medium and as the largest assortment of medium and the large assortment of large assortment of each of the large assortment of large assortment of sealed to the large assortment of cause. Here the large assortment of Ladies. Undergarments of every description, Chemises, Drawers, Night-gowns (Skirts, &c.). As this group was just coming into view when the great storm region was disappearing, the terms as soon as they are offered for sale by the spots marking the latter must soon reappear by the sun's rotation, unless they have been dissipated while turned away from us. These disturbances seem to be in welld fined belts north and south of the sun's equator.

The development of a new sun storm was coiro deut with the farious beat last Monday, which was continued through the week. There was a delusive promise of rais less Monday 12c. 15, 20c and 25c evening. Cleuis rolled up in the west, but there was no rais fall. It would seem that canevening. Cleuis rolled up in the west, but there was no raid fall. It would seem that condensation did not occur, because the cool current which seemed reacy to bring raio was warmed by the overheated air so that it failed to perform its office. It requires cold to produce, to perform its office. It requires cold to produce and a complete discussion, and the cold currents which duce condensation, and the cold currents which are rushing toward the heated regions become heated by the soler energy and the hot earth so the temperature is not sufficiently reduced to produce r.n. The rain of lest Thursday night, although violent and quite copicus, was really of lime consequence, so quickly did the hot earth convertit into steam. The thirsty plants could hardly drink in the needed mois-ture before it was evaporated. The forest fires which were temporarily sundued by the rain, have broken out again, and clouds of smoke cover the country There is a strong smell of fire in the air. Uccomfortable nights are sucaseded by barning days. In view of present conditions, it is well to tusband the water supply and all supplies. It is quite probaable that the hot and very dry summer will be followed by a long cold winter. here has been an uppracedented evapora tion of moisture from the sea and earth. When the reaction comes and condensation begins the less of hear will be so great that the cold will be severe. The effect of solar disturble bacoes on the Southern seas during the winter bacoes on the Southern seas during the winter and Knitting Yarns, in all shades and colors, so 29 At C. O. BERRY'S. cold will be severe. The effect of solar disturmatters by adding waters vapor, which must be gandenged, rebbing the air of its heat continuouely. Any considerable permanent increase of solar energy would bring glacial action, by in creasing the cold of winter through conders; ion of excessive volumes of watery vapor, If the history of the great glacier which once covered the site of this city cou'd be fully known it would doubtless be found a result of increased solar energy through a series of years-perhaps a mexican sun spot period in not very remote found in the glacial drift. If the reaction from the present excessive heat out'd be fairly establish. ed before winter is here the prospect would be tributton Company is local. better for a mild winter. But if action and reaction are equal, and the reaction comes in winter there will be pleaty of oold. - Rochester

A STORY OF TWO BEGGARS.-A DOVel game of "raising the wind" was successfully played on Mr. A. Weiskittle, sr., the well known iron founder of Canton, on Saturday | 20 prizes last. While waking along Baltimore street 9 prizes Mr. Weiskittle was accosted by a forlorn lock iog man, with "Please, mister, give me a quarter to have this prescription filled for my 1,960 prizes. wife, who keys dangerously ill at home." The Whole ties stepped up and stated that he was on the point of starvation, not having tasted food during three days. This recital melted the hours of Edward 2, M., Courier-Journal Buildbeggar No. 1, and he showed his genero-ity by Eg. Louisville, My., or 20 Broadway, N.Y. harding the hungry man the money he had just received for the benefit of his dying wife. The setion had an excellent office on the original denor, who rewarded beggar No. 1 for the useoffsh interest he took in the weefel conditions who are deally receiving desirable goods for tall unseifish interest he took in the waefal coadi tion of beggar No. 2, and the two medicants separated each with cash in pocket. It was afterward discovered that the affair was a put up job and the "partners" erjoyed themselves hugely the balance of the day in investing their Capital in sobooners of beer. - Baltimore News.
